

ATTENTION:

This workbook represents one set of scenarios based on best information and data available at the time of the analysis. Replicability of results summarized in this workbook and in the FY2013 State of the City's Facility Infrastructure & Fleet Inventory Report will depend on assumptions, exclusions, and exceptions made on a case-by-case basis. Steps are being taken to address the gaps and outliers identified during the course of this analysis and future data pulls may reflect these improvements. In addition to the caveats listed in the Infrastructure Report, see below for cautions on extrapolating information using the contents of this workbook.

The base data is a snapshot of Fleet records as of July 2013, leaving the analysis vulnerable to manual entry error, missing records, and other vehicle outliers within the source data.

Due to the span of the analysis and changes in: replacement costs of vehicles, maintenance costs accrued, the number of vehicles in the inventory at any given time, and bulk purchases planned throughout the FY 2013 year, entries may have been manually added, removed, or edited.

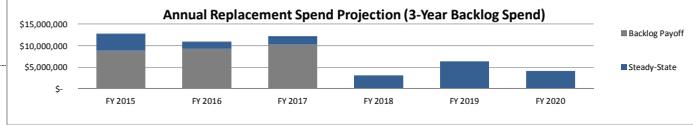

<u>Term</u>	<u>Definition</u>
LTD Maintenance Cost	Parts, Labor, and Commercial value of all maintenance that has been done on the vehicle in its lifetime.
LTD Maintenance Cost as a % of Purchase Cost	Due to the varying levels of vehicle usage, the city's fleet specialists use a ratio to determine when a vehicle is due for replacement. Specifically, when a vehicle's LTD maintenance cost exceeds 75% of the original purchase cost, the vehicle is due for replacement.
Replacement Cost	2013 purchase costs for the most commonly purchased fleet vehicles
Average Annual Maintenance Cost Accrual	This is the LTD Maintenance Cost divided by the number of years the vehicle has been in service. It is used to determine how often a vehicle will need to be replaced based on best available data.
Backlog	Describes those vehicles with a Lifetime to Date (LTD) maintenance cost that exceeds 75% of their purchase cost, which signals a need for replacement.

SUMMARY TABLES

Recent Fleet Investments (FY13 and FY14)	Replacement Cost	# Vehicles
Corrections	\$ 300,000	1
DPW - OOT - Highway & Street	\$ 76,000	2
Fire Rescue	\$ 5,329,587	18
Police Department	\$ 7,317,604	206
Grand Total	\$ 13,023,191	227

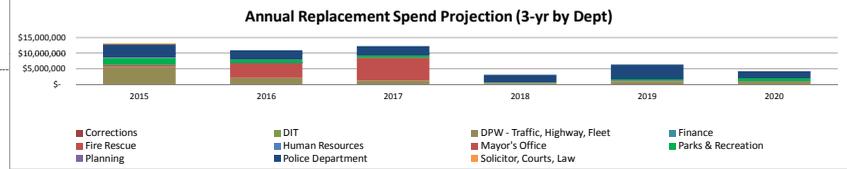

Source: Assumptions
Detail: This table is a summary of the planned vehicle investments in FY 13 and FY 14. The replacement model assumes that all of the vehicles purchased in this chart will replace existing same-class vehicles wherever possible.

Annual Replacement Spend Projection (3-yr)	Steady-State	Backlog Payoff	Total
FY 2015	\$ 3,974,127	\$ 8,841,994	\$ 12,816,121
FY 2016	\$ 1,696,455	\$ 9,257,203	\$ 10,953,657
FY 2017	\$ 2,031,002	\$ 10,212,021	\$ 12,243,023
FY 2018	\$ 3,143,734	\$ -	\$ 3,143,734
FY 2019	\$ 6,388,503	\$ -	\$ 6,388,503
FY 2020	\$ 4,175,202	\$ -	\$ 4,175,202
Total	\$ 21,409,022	\$ 28,311,218	\$ 49,720,240

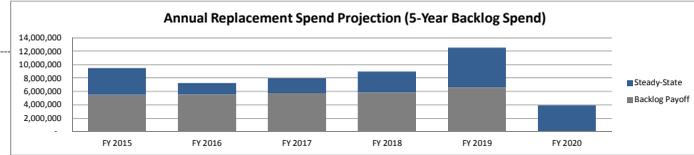

Source: Vehicle Data and Assumptions
Detail: Backlog payoff is based off \$26.5M in backlogged vehicles, spread over a 3-year period, prioritized by % maintenance cost exceeding purchase cost and accounting for 3% inflation at the time of vehicle replacement. Assumptions replace same-class vehicles prior to FY2015. Steady-State is determined by adding average annual maintenance cost to lifetime maintenance cost, replacing vehicles when the sum is greater than or equal to 75% of purchase cost. Once replaced, LTD Maintenance cost is reset to zero and process is repeated using NEW Replacement cost. Outliers were accounted for by taking an average of same-class vehicle data by Department.
