

Situational Awareness Bulletin

From the Mayor's Office of Emergency Preparedness

DRIVING IN EXTREME COLD & SNOWSTORMS

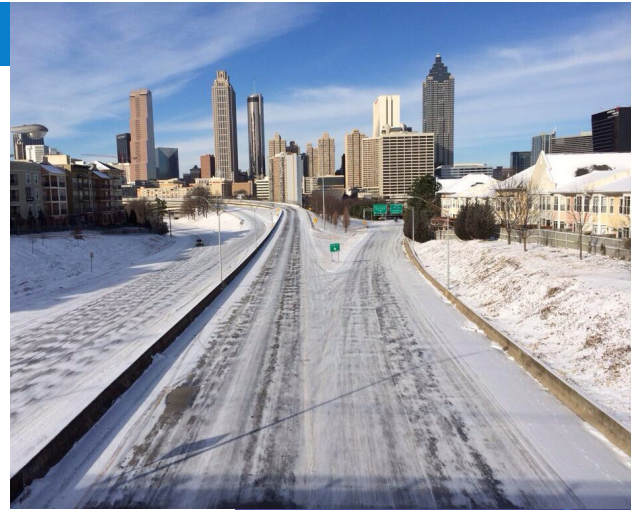

SHOULD YOU STAY OR GO?

STAY:

- ❄️ If you're stuck on the road to avoid exposure and/or rescue is likely.
- ❄️ If a safe location is neither nearby or visible.
- ❄️ If you do not have the appropriate clothing to go outside.
- ❄️ If you do not have the ability to call for help.

GO:

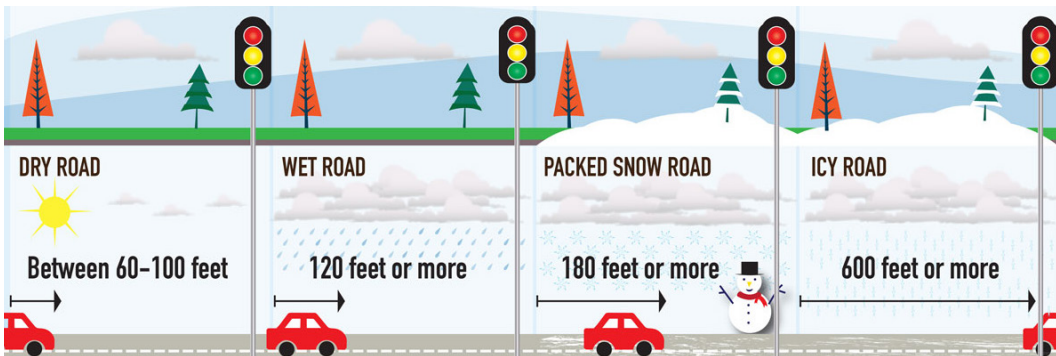

- ❄️ Give yourself enough time to get to your work location.
- ❄️ Move into warm locations during breaks.
- ❄️ Walk slowly to avoid slips, trips and falls.
- ❄️ Wear a hat to reduce the loss of body heat, cover your mouth with a scarf to protect your lungs.

ICE AND SNOW, TAKE IT SLOW!

- ❄️ Slower speed, slower acceleration and slower braking. For a car traveling 35 mph, the thinking and braking distance increases as weather worsens.

EXTREME COLD
