What is eCertification?

eCertification is software used by the Clerk's office to generate tamper-proof and self-validated certified copies of Court Records and Real Estate Recordings. Customers can purchase electronically certified records from the convenience of their home, smartphone, or anywhere they have internet access 24-7, and upon processing by the Clerk's office, receive them as secured PDFs via email or online.

To request an **eCertified** copy, simply [click here](#) or go to <https://ecert.gsccca.org> to create an account. Once registered, log in to get started:

[Follow the steps to submit a request for an eCertified document.](#)

Click Submit a New Request at the top, right corner of the page

- Select the county where the record is located
- Select the document type

Once the Clerk's office processes the request, payment authorization will be required.
